'World Cities Day': Valuing Community and Fostering Unity - An initiative by Bengaluru Smart City

Project in Focus

Bengaluru Plantation Drive on Eve of World Cities Day

An Opportunity to be Part of Global Smart Cities Alliance

Cleanliness Drive carried out by Dharamshala Smart City

Bengaluru Smart City extends best wishes to all City Planners, Administrators, Managers and Practitioners on this World Cities Day. Commissioner BBMP, local volunteers, green activists, engineers, labor, TULIP interns participated in the plantation drive on the eve of World Cities Day at Bengaluru.

It is a great opportunity for Indian cities and CEOs to join a global cohort of cities to pilot policies in one or more of the five areas mentioned in the letter. It is at no cost to the government and will give you fantastic exposure. The Smart Cities that are interested or want to know more, should reach out to us and join an online presentation from WEF. Post this interested cities may sign an independent Memorandum of Understanding (MoU) with World Economic Forum (WEF).

Dharamshala Smart City carried out a cleanliness drive on 5.6 km trek to Triund & 3.5 km uphill trek till Ilaka meadows. The treks are located at an altitude of 3700 ft. The trek was surveyed with Dharamshala MC Councilor/ Officials from Forest Department to explore provision for providing facilities like drinking water, eco-friendly toilets & improved trekking route.

From the Press

SCM Fund Utilization Doubles Post Lockdown

Smart Cities Mission fund utilization has seen a considerable leap in the last three months with all cities submitting an average utilization of 800-900 crore. A big factor in pushing utilization has been a major thrust on construction activities and we have been able to initiate number of projects that were in pipeline and were held up due to the Covid19 pandemic.
