

# Advisory

## Organization : CITYNET

### Smart city concept :

- Citynet is a regional network of over 130 cities and organizations specializing in sustainable development. Citynet programs focus on the fields of climate change, disaster risk reduction and infrastructure development through city-to-city cooperation. Members are cities and local governments, non-governmental organizations and development authorities in the Asia-Pacific .

### Support to programme:

- Capacity building – through city to city exchanges and training
- Successful competition - to promote city led economic growth
- Use of revenue transfers – to promote economic development
- Collaboration with civil society – resettlement of squatter families
- 24/7 water supply – through PPP
- Leveraging land – to promote urban development
- Promoting employment through ICT
