

Advisory

Organization: Centre of Excellence in Urban Governance, IIM Bangalore

Smart city concept:

- A smart city is a set of initiative to promote quality living where complexities and complex solving methods are simplified and the standard of living of citizens improved.
- Smart city need not be exclusively technology or infrastructure oriented; it includes interventions in soft areas as well like institutional reforms, changing citizen's behaviour etc.

Support to programme:

- IIM Bangalore – Centre of Excellence in Urban Governance can provide advisory support to the ministry of urban development/ state government and the urban local body.
