Skilling in Smart Cities April 2017

Smart Cities Mission

- **Smart Cities Mission is a flagship project by MoUD for SUSTAINABLE & INCLUSIVE development**
- **It aims to provide core infrastructure and decent quality of life to its citizens**
- **Promotes the use of ‘Smart Technologies’ to have smart solutions**
- **Projects in smart cities cater include best practices for Smart technological solutions, Energy and Environment, Housing and Social Sectors, Sanitation, Solid waste management, urban transport, water supply, heritage conservation...**

60 smart cities have been shortlisted across 3 phases

Smart Cities Mission

As per the 'Standards for Smart Cities in Smart Cities Mission' developed by Ministry of Urban Development (MoUD) with 22 indicators that 'can' be used for measuring the performance of Smart cities, 'economy and employment' is one of the key indicator. Many of the selected Smart Cities under the mission, have also incorporated in their area based or pan city proposals aspects of skill development, entrepreneurship and training and livelihood centres.

Smart Cities Mission – various kinds of projects

Energy & Environment

- Solar Energy, Renewable Energy
- Smart Metering, Efficient Use of Electricity

Sanitation and Storm Water

- Collection of solid waste
- Waste processing and reuse
- Waste disposal
- Waste to Energy
- Waste Composting

Water Supply

- 24X7 water supply
- Smart metering
- SCADA system
- Water quality

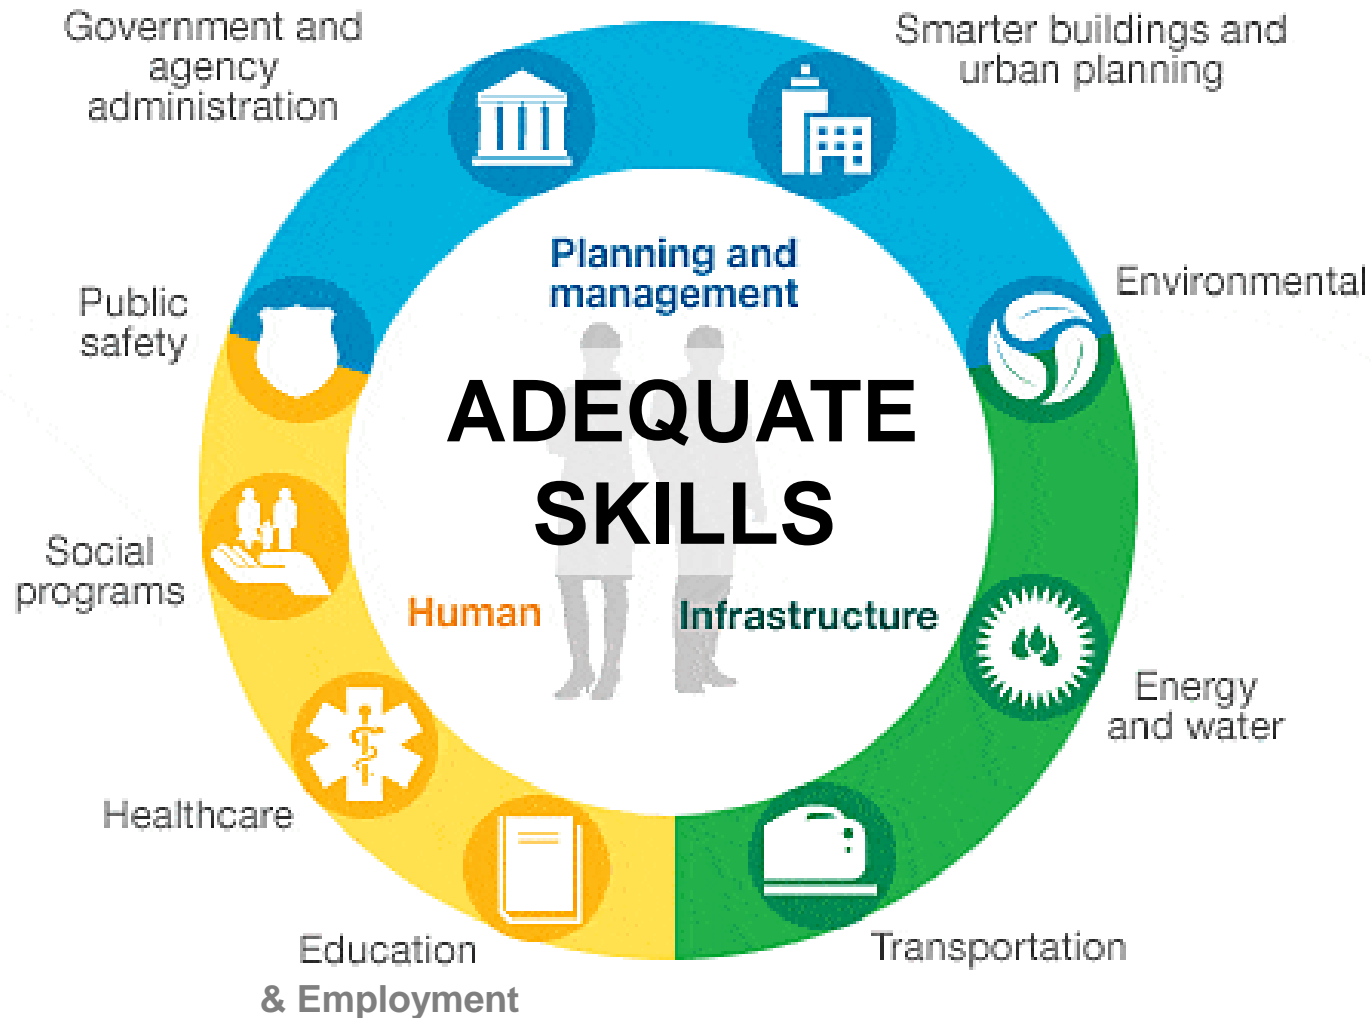

Heritage Management

- Skill development of masons and construction workers

Economic development

- Incubation centre, livelihood development, skill development centres, start up zones

Smart Cities Mission – Need for Skill Development

Smart Cities Mission – Need for Skill Development

SMART CITY

Improvement in

Institutional

→ Capacity building of service providers – improving service delivery

Physical

→ Improved infrastructure and management practices

Social

→ Improved social infrastructure, inclusive development

Economic

→ Employment opportunities for citizens, resilient economy of city

Smart Service Provider

Skill Development / Capacity building of service providers (ULBs)

Smart Citizenry

Inclusive Skill Development of youth

Skilling in Smart City

Smart City Skill Development Initiative to be a Launchpad for:

- **Introducing and Promoting Sustainable ‘City Making’ Practices in Indian Urban Context**
- **Leading the path for skilling in ‘new emerging economies’**
- **Supporting ‘Inclusive Development’, catering to the needs of resident and floating population, unemployed youth, women and marginalized community**
- **Supporting other municipalities with ‘best practices’ in skilling**

Eye on skill development, NDMC ties up with NSDC

NDMC to come up with Skill Developing Centre at Moti Bagh

STAFF REPORTER
NEW DELHI

The New Delhi Municipal Council Smart City Limited (NDMCSCL), a special purpose vehicle formed to execute the smart city plan for the NDMC area here, signed a Memorandum of Understanding (MoU) with the Na-

tional Skill Development Corporation (NSDC) on Monday.

The MoU was signed by Juhi Kumar, CEO of NDMCSCL and Manish Kumar, Managing Director and CEO of NSDC.

Union Urban Development Minister M. Venkaiah

Naidu said that smart city development focussed on employment generation and that every smart city needed to have at least one skill development centre.

Focus on training

The NSDC will also assist in setting up Pradhan Mantri

Kaushal Kendras (PMKK) to impart skill training and upgradation as per stipulated norms. The NDMC is also developing a high-quality Skill Developing Centre at Moti Bagh, which will offer courses in 3D printing, automation, IT/ITES and Robotics.
