

## Information and Communication Technology

### **ORGANIZATION : PANASONIC**

#### **COMPANY PROFILE :**

Panasonic corporation, formerly known as Matsushita Electric Industrial co., Ltd. Is a Japanese multinational electronics corporation headquartered in Kadoma, Osaka, Japan. Panasonic's operations are organised into three broad "business fields" - consumer, solutions and components & devices - and nine "domain companies" - AVC networks, eco solutions , appliances, industrial devices, systems and communications, automotive systems, energy, healthcare, and manufacturing solutions.

The Fujisawa sustainable smart town has been developed by Panasonic. The “Fujisawa model” is a revolutionary town-creation scheme that considers energy, enhancing people's lives with solar power, security, mobility, community, and healthcare.
