

Webinar on
**INTEGRATING
HEALTH
IN URBAN
PLANNING**

📅 26 August 2020
🕒 6:00 PM to 7:30 PM (IST)

About the Webinar:

Good urban planning can reduce the burden of diseases and risks involved with it, relieving pressure from health systems. To that end, the webinar will discuss how Health (human and planetary) can be used as a catalyst for improving planning systems in the country, and explore India's urban health challenges, priorities and avenues for improvement.
