Child in the City
A COLLECTION OF COMIC STRIPS

by
Shubhajit Bagchi, Sankho Chatterjee

Inspired by CFSC (Child Friendly Smart Cities) and Urban 95
This collection of comic strips is a representation of everyday encounters and experiences of young children in cities associated with their ‘live’, ‘play’, ‘learn’ environments and how they ‘move’ from one to the other.

These encounters are shaped by the design of the built environment which can either facilitate or hinder their free movement. Highlighting these small yet consequential details, this comic series helps you experience the city at 95cm, the height of a 3 year old.
