A Game Changer for Development?

A MOOC* by the
World Bank Group
in collaboration with edX

#CitizensEngage

It is widely acknowledged that government works best when citizens are directly engaged in policymaking and public service delivery.

But what conditions are needed for citizen engagement initiatives to be effective? And does citizen engagement actually lead to tangible differences in people's lives?

This course provides a critical analysis of citizen engagement both in theory and practice, and presents an overview of how it can be leveraged to achieve development outcomes.
