Offices

Implemented by
giz Deutsche Gesellschaft
für Internationale
Zusammenarbeit (GIZ) GmbH

Reconfiguring the work space as per norms

With the social risk of out spreading the infection, offices will have to redesign their spaces to ensure physical distancing.

Reconfigure office spaces with fewer workforce and allocate larger workstations with transparent desk barriers for each employee.

#keepspace, #enjoyworking,
#enjoyspace

Cohesive in-person and online conferences

It is crucial in post-covid era, to stagger shifts for employees without disrupting the productiveness of the work.

Introduce cohesive digital and in-person platforms for conferences where the employees can attend meetings online from their own stations.

#cohesivemodel, #workfromhome, #flexiworkspace

Split Scheduling

It is risky and unsafe to have common lunch and break timings at offices in the post-covid era as they result in large gatherings.

Introduce staggered timings and shifts for lunch and other breaks to help workers in practicing physical distancing.

#staggeredbreaks, #safetyprotocols,
#splitschedule

Physical Distancing

In the new normal life, people become anxious about face-to-face meetings. AI technology can be used to support office work.

Make use of AI and digital tools to support the touchfree interaction with visitors and clients. Virtual reception waiting areas with digital screens to convey information are a good example for this.

#smartoffice, #physicaldistancing,
#sensortechnology

Mandatory medical insurance for employees

With the sudden Covid-19 outbreak, health insurance becomes a necessity for providing financial backup to employees at times of medical emergencies. **Provision of mandatory medical insurance to workers and wage assistance to the Micro, Small and Medium Enterprises (MSMEs) is mandatory.**

#healthinsurance, #msme #healthcare

SUMMARY

Encourage work from home activities and enforce to reconfigure the work spaces with less workforce

Adapt to latest technologies to include cohesive platforms to conduct in-person and online conferences.

Establish staggered timings to ensure physical distancing

Make use of Artificial Intelligence and other digital tools to encourage touchfree interaction

Provision of mandatory medical insurance to employees to ensure financial backup during medical emergencies.
